

✦ Pet Apparel & Lifestyle Products Designer ✦  
**Seeking new opportunities**

Julia@JuliaSzkiba.com • www.JuliaSzkiba.com

I design trend-driven, commercially successful products that blend comfort, function, and personality. With 20+ years of design and product development experience in various market categories, I can create cohesive pet collections across apparel (hoodies, sweaters, jackets, costumes), bedding and soft goods, toys, accessories, and graphic-led lifestyle items.

My work translates human fashion and cultural trends into pet-appropriate, wearable, durable, and retail-ready products, all balancing fit, safety, materials, and playfulness. From concept and trend forecasting to artwork, sourcing fabrics, CADs, tech packs, illustrations for graphics and all-over patterns for textiles, and merchandising visuals, I help brands bring distinctive pet products to market to those customers (and their pets) who truly love their pets.
